

TRANSFORM DAY-TO-DAY INSTRUCTION

Support for teachers is essential. But it doesn't look the same for everyone in your learning community. Give teachers what they need most: a flexible resource to save time, engage students, and meet the needs of all learners across the curriculum.

Gale In Context: For Educators is a curriculum and instruction tool that merges current, relevant, standards-aligned content with rich lesson plans. Personalization features further help support teachers in engagement and differentiation in everyday learning. High-quality supplemental resources and rigorous instructional plans enrich curriculum, while empowering teachers to provide a culturally responsive classroom that incorporates soft-skill development into academic lessons. This helps ensure schools can effectively deliver on their mission to prepare students for college, careers, and life. Fostering collaboration among teachers, coaches, and specialists reduces burnout as educators save time sharing resources, while enhancing student learning. Because when teachers succeed, students do too.

GIVE EXTRAORDINARY EDUCATORS EXTRA SUPPORT

ENGAGE STUDENTS

Enrich curriculum with current, relevant, and diverse *Gale In Context* digital learning materials, such as primary sources, experiments, case studies, academic journals, magazines, newspapers, books, images, podcasts, and videos—all aligned to national and state standards.

PERSONALIZE INSTRUCTION

Seamlessly differentiate instruction with features to find and customize materials to meet a variety of student needs with leveled content, and provide equitable access for all learners with language translation, readability features, and other accessibility tools.

SAVE TIME AND EFFORT

Access ready-to-use teaching content including high-quality lesson plans supporting core English language arts (ELA), literacy, social studies, science subjects, and more. Save valuable planning time with enhanced folder organization features and other workflow tools.

INCREASE COLLABORATION

Collaboration tools embedded in the new administrator and teacher profiles offer more opportunities for educators to support one another with shared resources and allow more seasoned educators to set newer teachers up for success. Also, they can share organized lesson plans with substitute teachers to ensure continuity of learning, even when there are disruptions.

MAXIMIZE YOUR INVESTMENT

Ensure that all the investments your school or district has made in *Gale In Context* and student-facing *Gale eBooks* are leveraged to support your school's learning goals and initiatives.

BUILD SOFT SKILLS

Help teachers integrate soft-skill development including resiliency, cooperation, collaboration, ethical decision-making, and more into everyday instruction with pre-built lesson plans with integrated social and emotional learning (SEL).

“Building our capacity of content allows us to differentiate instruction and customize learning for our kids. Gale supports our teachers’ abilities to guide students in self-directed learning, whether they are working on curriculum projects or just exploring a topic of interest to them.”

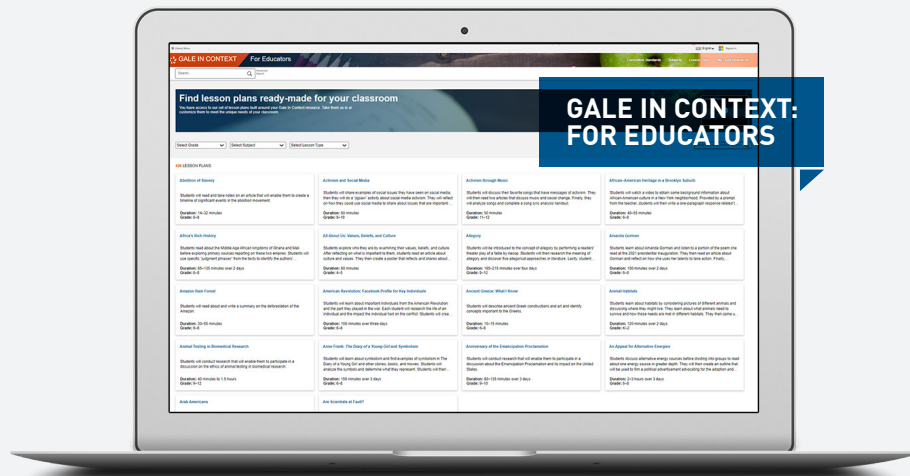

Doreen Osmun, Assistant Superintendent,
Hudson City Schools, OH

LEARNING CENTER

In-product, on-demand training videos and sample projects help teachers see *For Educators* in action and get tips for using the resources to enhance instruction.

COLLABORATION TOOLS

Create and share personal content sets for lesson planning and student assignments, using email, learning management systems like Canvas or Schoology, Google Workspace for Education, and Microsoft 365.

Product screen capture as of December 2021. Actual interface may vary.

FIND LESSON PLANS

Spend less time planning and more time teaching with hundreds of pre-built lesson plans that link to high-quality *Gale In Context* digital learning resources.

ALIGN TO STANDARDS

Support curriculum with standards-aligned instructional content, class activities, and lesson plans, including diversity, equity, and inclusion and SEL materials, to help educators embed these topics directly into daily learning.

MEASURE PROGRESS

Use built-in assessments to monitor students’ comprehension of content and identify learning gaps so teachers can provide alternative resources or additional scaffolding.

PROVIDE EQUITABLE ACCESS

Support equity for all students with accessible resources that feature built-in language translation, text-to-speech technology, the OpenDyslexic font, and other readability tools.

FUELED BY GALE IN CONTEXT

Gale In Context: For Educators is powered by engaging, topical *Gale In Context* digital learning content that spans core subjects, including *Biography*, *Environmental Studies*, *Global Issues*, *Opposing Viewpoints*, *Science*, *U.S. History*, and *World History*, and the cross-curricular resources found in *Gale In Context: Elementary*, *Middle School*, and *High School*.
