

TEAM UP FOR STUDENT SUCCESS

For the teaching heroes who do it all, comes a lesson planning tool that has it all. Ensure student success by giving all the educators in your school a way to engage students inside and outside the classroom.

DISCOVER targeted class resources and professional learning support

- Search across *Gale In Context* databases for resources supporting grades K-12.
- Browse for resources by course subject or by state and national curriculum standards.
- Locate instructional content, lesson plans, activities, and project plans.
- Find tips and support with on-demand videos, tutorials, and training materials.

CUSTOMIZE resources to support different learning needs

- Create interactive document-based lessons with instructor note and annotation tools.
- Collect resources in folders to assign to students as unit plans, reading lists, or lesson menus.
- Combine collected resources with links to your own lessons or documents, or to online resources including websites, images, or videos.
- Help teachers deliver engaging instruction to empower students.

COLLABORATE with colleagues and share with students

- Create an account to collect and save resources for multiple classes and projects.
- Use Google Classroom, Drive, or LMS to share a single document, an annotated document, or resource collection.
- Send copies or set up a shared folder for multiple colleague contributors.
- Work with other educators within your school, district, or across districts to deliver the best resources for students.

The result? Students are empowered to grow as critical thinkers and future-ready learners.
